AI READINESS ASSESSMENT

For Construction Firms (≤ $10M Annual Revenue)

Purpose of This Assessment

This AI Readiness Assessment evaluates whether your construction firm is prepared to safely, practically, and profitably adopt artificial intelligence tools—with a focus on Large Language Models (LLMs) such as ChatGPT, Copilot, or similar systems.

The assessment is designed specifically for construction companies and emphasizes:

- Real operational use cases (estimating, project management, administration)
- Data quality and governance
- Risk management and staff readiness
- Near-term, low-cost opportunities for efficiency gains

Outcome: A clear, prioritized roadmap identifying where AI can help today, what must be addressed first, and what risks to avoid.

How to Use This Assessment

This assessment has two parts:

Part 1 (Sections 1-8): Complete these sections on your own before our consultation call. Take your time and answer as honestly as possible—there are no wrong answers!

Part 2 (Sections 9-11): We will complete these sections together during our facilitated consultation call.

Estimated completion time for Part 1: 20-30 minutes

PART 1: CLIENT-COMPLETED SECTIONS

Complete Sections 1-8 before your consultation call

Section 1: Company Profile

Company Name: _____

Primary Contact: _____

Role/Title: _____

Email / Phone: _____

Company Size:

☐ 1-5 staff

☐ 6-15 staff

☐ 16-50 staff

☐ 50+ staff

Annual Revenue (approx.):

☐ <$1M

☐ $1-5M

☐ $5-10M

☐ $10M+

Primary Construction Type:

☐ Residential

☐ Commercial

☐ Civil / Infrastructure

☐ Design-Build

☐ Other: _____

Section 2: Business Objectives & Pain Points

What are your top 3 operational challenges today?

(Examples: estimating workload, admin burden, missed information, rework, staff burnout, communication gaps)

1. _____

2. _____

3. _____

For each challenge above, rate the impact on your business:

(1 = Minor inconvenience, 5 = Major cost/risk to business)

Challenge 1 Impact: ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

Challenge 2 Impact: ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

Challenge 3 Impact: ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

Which areas consume the most non-billable time?

(Check all that apply)

☐ Estimating and takeoffs

☐ Project documentation (RFIs, submittals, meeting minutes)

☐ Scheduling and updates

☐ Change orders

☐ Reporting to clients or owners

☐ General administration

☐ Other: _____

Why are you exploring AI solutions now?

(Check all that apply)

☐ Competition is adopting new technology

☐ Need to improve margins/profitability

☐ Staff burnout or retention issues

☐ Client demands for faster turnaround

☐ Growing too fast to keep up

☐ Curious about AI capabilities

☐ Other: _____

Section 2.5: Investment & Timeline Expectations

What is your approximate budget range for AI implementation?

(This helps us recommend appropriate solutions)

☐ Under $5,000

☐ $5,000 - $15,000

☐ $15,000 - $30,000

☐ $30,000 - $50,000

☐ $50,000+

☐ Not sure yet / depends on ROI

How quickly do you expect to see measurable results?

☐ Within 1 month

☐ Within 3 months

☐ Within 6 months

☐ Within 1 year

☐ No specific timeline

How would you measure success of AI implementation?

(Check all that apply)

☐ Time saved per week/month

☐ Reduced overtime costs

☐ Fewer errors or rework

☐ Faster project turnaround

☐ Improved profit margins

☐ Better staff satisfaction/retention

☐ Increased project capacity

☐ Other: _____

Have you successfully implemented new technology in the past 3 years?

☐ Yes - it went smoothly

☐ Yes - but it was challenging

☐ Yes - but we abandoned it

☐ No - we haven't tried new technology

If yes, what was it and what did you learn?

_____

_____

Section 3: Current Tools & Systems

What software and tools are you currently using?

Please list the specific tools/software for each function. If you are not using any dedicated tool for a function, write "None" or "Manual/Excel".

Estimating:

(e.g., Procore, PlanSwift, Excel, manual calculations)

Tool(s): _____

Scheduling:

(e.g., Microsoft Project, Procore, BuilderTrend, Excel)

Tool(s): _____

Project Management:

(e.g., Procore, BuilderTrend, PlanGrid, email)

Tool(s): _____

Document Management:

(e.g., Bluebeam, Google Drive, Dropbox, OneDrive, SharePoint)

Tool(s): _____

Accounting/Financial:

(e.g., QuickBooks, Sage, Excel)

Tool(s): _____

Communication/Collaboration:

(e.g., Microsoft Teams, Slack, WhatsApp, email)

Tool(s): _____

Meeting Notes/Transcription:

(e.g., Otter.ai, Microsoft Teams transcription, manual notes)

Tool(s): _____

General Admin:

(e.g., Microsoft Office, Google Workspace)

Tool(s): _____

How satisfied are you with your current software ecosystem?

☐ Very satisfied - everything works well together

☐ Mostly satisfied - a few integration issues

☐ Neutral - it gets the job done

☐ Frustrated - lots of manual data entry between systems

☐ Very frustrated - seriously considering a change

What are your biggest frustrations with your current tools?

_____

_____

Primary data storage locations:

(Check all that apply)

☐ Excel / Google Sheets

☐ Email inboxes

☐ Cloud drives (OneDrive, Google Drive, Dropbox)

☐ Construction software (Procore, BuilderTrend, etc.)

☐ Local server

☐ Paper-based files

☐ Mix of everything / decentralized

Section 4: Data Quality & Accessibility

Rate the following on a scale of 1 (poor) to 5 (excellent):

Area	1	2	3	4	5
Data consistency (naming conventions, file formats)	☐	☐	☐	☐	☐
Data completeness (all necessary info captured)	☐	☐	☐	☐	☐
Ease of finding information when you need it	☐	☐	☐	☐	☐
Use of templates and standards	☐	☐	☐	☐	☐
Historical data usability (past projects accessible)	☐	☐	☐	☐	☐

Do you have regular backup systems in place?

☐ Yes - automated cloud backups

☐ Yes - manual backups on schedule

☐ Sometimes - irregular backups

☐ No - no formal backup system

☐ Not sure

How do you control who has access to sensitive project data?

☐ Clear access controls and permissions

☐ Some access controls in place

☐ Everyone has access to most things

☐ Not sure / no formal system

How long do you typically keep project data?

☐ 7+ years (legal/warranty requirements)

☐ 3-7 years

☐ 1-3 years

☐ Less than 1 year

☐ No formal retention policy

Key observations or issues with your data:

_____

_____

Section 5: Process Maturity

For each process, indicate the current state:

Process	Ad Hoc	Somewhat Defined	Standardized
Bidding / Proposal preparation	☐	☐	☐
Contract negotiation / Award	☐	☐	☐
Estimating	☐	☐	☐
Scheduling	☐	☐	☐
Project setup / Mobilization	☐	☐	☐
Procurement / Purchasing	☐	☐	☐
Subcontractor management	☐	☐	☐
RFIs / Submittals	☐	☐	☐
Site supervision / Daily reports	☐	☐	☐
Quality control / Inspections	☐	☐	☐
Safety management	☐	☐	☐
Change orders	☐	☐	☐
Budget / Cost tracking	☐	☐	☐

Progress billing / Invoicing	☐	☐	☐
Drawing / Plan management	☐	☐	☐
Photo documentation	☐	☐	☐
Meeting documentation	☐	☐	☐
Punch list management	☐	☐	☐
Closeout / Warranty documentation	☐	☐	☐
Lessons learned / Post-project review	☐	☐	☐

Section 6: AI Awareness & Experience

Have you or your team used AI tools for business purposes?

☐ No experience

☐ Limited experimentation (tried a few times)

☐ Regular personal use (someone uses it regularly)

☐ Structured business use (integrated into workflows)

Which AI tools have you or your team tried?

(Check all that apply)

☐ ChatGPT

☐ Microsoft Copilot (365, Teams, etc.)

☐ Google Gemini

☐ Claude (Anthropic)

☐ AI features in existing software (e.g., Procore AI, Otter.ai)

☐ Other: _____

☐ None - haven't tried any AI tools yet

What have you tried using AI for?

(Check all that apply)

☐ Writing emails or reports

☐ Summarizing documents or meeting notes

☐ Estimating assistance

☐ Project tracking and management

☐ Scheduling or planning

☐ Data cleanup or analysis

☐ Creating templates or forms

☐ Research or learning

☐ Other: _____

☐ Haven't tried it yet

If you have tried AI, what was your experience?

☐ Very positive - saw clear benefits

☐ Somewhat positive - some useful results

☐ Mixed - inconsistent quality

☐ Not impressed - didn't see the value

☐ Haven't tried it yet / Not applicable

Have you had any failed technology implementations in the past?

☐ Yes - and it was expensive/disruptive

☐ Yes - but we learned from it

☐ No - our tech adoptions have generally worked

☐ No - we haven't tried much new technology

If yes, what went wrong and what did you learn?

_____

_____

Section 7: Governance, Risk & Current Practices

This section helps us understand your current data protection and technology governance practices. Many small construction firms don't have formal policies yet—that's perfectly normal! We'll help you build what you need.

Do you currently have the following in place?

Area	Yes	No	Unsure
Written data access controls (who can see what)	☐	☐	☐
Confidentiality policies for employees	☐	☐	☐
Guidelines for using third-party software/tools	☐	☐	☐
Client data protection practices	☐	☐	☐
Vendor/subcontractor data sharing agreements	☐	☐	☐
Cybersecurity training for staff	☐	☐	☐

What are your main concerns about adopting AI?

(Check all that apply)

☐ Data privacy and confidentiality

☐ Legal or contractual risk

☐ Staff misuse or over-reliance on AI

☐ Reliability and accuracy of outputs

☐ Cost and ROI uncertainty

☐ Integration with existing systems

☐ Training and adoption by team

☐ Client perception or requirements

☐ Not sure / want to learn more

Do any of your client contracts restrict the use of AI or third-party tools?

☐ Yes - some clients have restrictions

☐ No - no known restrictions

☐ Not sure / haven't checked

Section 8: Staff Readiness & Change Management

How would you rate your team's overall openness to new tools and technology?

☐ Resistant - prefer things the way they are

☐ Cautious - need convincing and clear benefits

☐ Neutral - will adapt if required

☐ Open - generally receptive to improvements

☐ Highly receptive - actively seeking better ways

Who would be the internal champion for AI adoption?

(Who would drive this initiative internally?)

☐ Owner/Principal

☐ General Manager

☐ Project Manager

☐ Operations Manager

☐ Estimator

☐ IT/Admin person

☐ Not sure yet

Do key decision-makers (owner, partners, GM) support exploring AI?

☐ Yes - strongly supportive

☐ Yes - somewhat supportive

☐ Neutral - need more information

☐ Mixed - some support, some skepticism

☐ Not yet - still building the case

How do you typically train staff on new tools or processes?

☐ Informal / on-the-job (figure it out as we go)

☐ Occasional formal training sessions

☐ Structured onboarding with documentation/SOPs

☐ External training / consultants

☐ Mix of approaches

How much time can your team realistically dedicate to learning new AI tools?

☐ Very limited - everyone is maxed out

☐ A few hours per month per person

☐ A few hours per week per person

☐ Flexible - depends on the benefit

☐ We can make time for valuable improvements

Have you budgeted for AI training or onboarding?

☐ Yes - specific budget allocated

☐ Not yet - but willing to invest if value is clear

☐ Limited budget available

☐ No budget - need free/low-cost options

☐ Not sure yet

Any other comments about your team's readiness for AI?
